COURSE CONTENT/DESCRIPTION:
COMM 2343 – Audio in Media
The history, theory, and production of audio in communication. There will be an emphasis on the theory of sound, critical listening, using a digital audio workstation (DAW).

LEARNING OBJECTIVES & OUTCOMES:
• This course will provide you with an overview of how audio is used in the media, a technical foundation in audio and basic skills in audio production.
• At the end of the course, you will be able to produce audio projects ranging from basic “radio/podcast” commercials to advanced documentaries, as well as gaining an understanding of how audio works in television, film, and online media.

I begin each class/semester using a Teacher-centered teaching approach and transition into a more Student-centered teaching approach, shifting the focus of activity from the teacher to the learners. By offering "open lab" hours beginning mid-semester, this allows students to use class time to work on assignments and provides opportunities for me to offer more individualized or small group one-on-one critiques and evaluations. I can then focus on specific questions and not tie up class time covering questions that may not apply to all students; for example I can repeat basic concepts and ideas for those who need that while allowing me to move into more complex topics for those who are already at a more intermediate or advanced level with the course subject matter. This time also allows me to give specific feedback on the progress of the assignments before they are due, because at the end of the semester, it's too late to correct or fix any problems that may have arisen.

AUDIO PRODUCTION ASSIGNMENTS*: Specific details will be given later
*Any assignment you submit may be used in this class or any future class for critique, discussion, or as an example to help discuss and clarify assignment requirements! Subject to change.

I = Incomplete:
Because this is a case by case situation, based on the reason for receiving an Incomplete (I) your final grade will require additional coursework. If this option is taken, it will be totally up to the individual to stay on top of completing what needs to be completed. I will NOT process ANY previous “Incompletes” during the final 3-4 weeks of the current semester; in other words, your “crisis” to complete your incomplete does NOT become my crisis as time draws near to the deadline. The exact details will be discussed and agreed upon if we need to cross this bridge.

Students, who are not progressing satisfactory and wish to drop the class, must follow the official college guidelines in obtaining a “W” for their final grade. If you end up taking an Incomplete (I) for the class, it is YOUR RESPONSIBILITY to prepare all the proper paperwork as well as complete the material required and file any remaining paperwork. I will not track you down and finish what you did not complete. If you fail to take care of the proper material, an Incomplete (I) will eventually default to the grade earned based on the work completed to that point.

Drop policy:

IT IS YOUR RESPONSIBILITY TO DROP THE CLASS BY THE DROP DATE in order to receive a "W" in the course. If a student’s name remains on the final roster, a letter grade must be assigned based on the work received by the instructor for the semester. I will NOT drop you AFTER the drop date; the only exception will require both department chair and dean to approve your request.

If you are on the roster at the end of the semester, you will receive the grade you have earned!

Rules, Class Policy, Etc.

Attendance:

You are expected to be in class every session just like with any other class or your job. If you miss class, it’s your responsibility to reach out to a fellow classmate to find out what was covered. It’s not my responsibility to repeat class lectures for repeatedly missing class. I will happily repeat material as needed to ensure comprehension but not for lack of attendance.

LATE WORK POLICY:

Once a due date is set, anything submitted AFTER the due date, will be accepted at my discretion. If accepted, it will be subject to a late penalty of 10-20% grade reduction, NO EXCEPTIONS!

Plagiarism:

All students are expected to turn in original work. Writing assignments are part of the final grade criteria. Plagiarism and other forms of cheating are unprofessional and will not be tolerated. Evidence of such activity will be turned over to administration for review to appropriate office(s).
