Course Objectives (Learning Outcomes): Students are expected to have a clear understanding of the ideas of Calculus as a solid foundation for subsequent courses in mathematics and other disciplines as well as for direct application to real life situations.

Course Activities/Assignments: You will find all assignments on <http://webassign.net/> . Please use Mozilla Firefox, , since WebAssign works best with this browser. Quizzes will be taken on Blackboard with reminders in WebAssign to direct you to them.

Assessment of Course Objectives: You will have course readings with quizzes as well as homework via WebAssign. There will be 3 exams and one comprehensive final. As our course is offered online, the exams will be taken online as well. Your exams will be offered on specific dates and will have a two hour time limit. The password for all exams is: ready. Once you log on, the time runs regardless. A Retake Exam, for improvement, will be administered one week after the original exam. The best grade will be recorded.

Do not register for a retake exam. Your retakes will be offered on the same dates as the rest of campus, but you will complete your retakes online as you do your other exams and homework. The retakes will be available for a 24 hour period on the date specified. They will still have a two hour time limit with password: retake.

A comprehensive test out exam will be administered after Maymester. A passing grade (70% or greater) on the comprehensive test out exam will replace a failing course grade with a maximum grade of C.

Grading Policy: Your grade will be calculated as follows:

WebAssign	10%
In-Class Quizzes	15%
Exam 1	15%
Exam 2	15%
Exam 3	15%
Comprehensive Final	30%

The grading scale for this course is:

90 – 100 = A
