

THE UNIVERSITY OF TEXAS AT EL PASO

COLLEGE OF SCIENCE

DEPARTMENT OF MATHEMATICAL SCIENCES

COURSE BASICS

Course Number: MATH 1411: CRN 22061
Course Title: Calculus I
Credit Hours: 4
Term: Spring 2022
Meeting and Location: Mon-Thurs 9:30 am – 10:20 am in LART 103
Prerequisite Courses: Math 1508 or Math 1310 with a grade of C or placement by testing services

INSTRUCTOR INFORMATION

Instructor: Tuesday J. Johnson
Office Location: Bell Hall 119

Contact

Instructor email: tjohnson3@utep.edu
Course coordinator: Dr. Julio Urenda at jcurenda@utep.edu
Math Department: mathdept@utep.edu

Emails will be answered Monday through Thursday until 5 pm. Emails received outside of these windows will be addressed during the next period or at my discretion, whichever is sooner.

Student Office Hours:

Student office hours are a time where you can get individualized help from me. I am available to answer questions about course content and address any concerns you have about the class. During scheduled times, you may drop in without an appointment. You are not required to attend the sessions if you do not have questions. If you do need help, and cannot attend during the scheduled time, please email me to schedule an appointment. My office hours for this semester are Monday and Wednesday from 1:30 pm – 3:00 pm in Bell Hall 119.

Office hours are only held during normal university scheduling. Please allow one business day for the return of emails. Evening and weekend emails will be attended to during regular business hours. Other times at the discretion of the instructor.

During off-scheduling (Finals week) or condensed scheduling (late start, closed university) hours will be adjusted appropriately.

REQUIRED TECHNOLOGY AND MATERIALS

Textbook

Calculus by Larson, 11th Edition (available as e-book and hardcover) with an Enhanced WebAssign Access code.

ISBN-10: 1-337-27534-4

ISBN-13: 978-1-337-27534-7

Required

You must have the Enhanced WebAssign access code. This gives you full access to both the assignments and the e-book.

Optional

A hard copy of the textbook is available, but not required for the class. The e-book is adequate and comes with the required access code.

Calculator

A Scientific Calculator is required (example: TI-30XIIS). A graphing calculator with derivative and/or integration capabilities is not allowed.

Online Components

You are required to have a WebAssign account (free) and the Enhanced WebAssign access code (paid access).

Ensure your UTEP e-mail account is working and that you have consistent access to the internet and a stable web browser. [Mozilla Firefox](#), [Google Chrome](#), and [Safari](#) are the most supported browsers for both Blackboard and WebAssign.

You will need to have regular access to a computer or laptop. Your cell phone is not sufficient for doing coursework. You will need to download or update the following software:

- Microsoft Office (available for free through UTEP),
- [Adobe](#),
- [Windows Media Player](#) or [QuickTime Player](#), and
- [Java](#).

Blackboard

Blackboard will be our primary platform. Inside of the Blackboard course, you will be able to see announcements, grades, and course materials including instructor created lecture videos and instructor notes from our daily class.

Modules:

This course is designed using a modular format—that is, one or two chapters are “packaged” as a single module so that all the materials, lecture notes, submission areas, discussion posts are in one area for a given module.

WebAssign

WebAssign is an online Course Management System of Cengage, the publisher of our text. You must have reliable internet to take this course. You will use the instructions below to access and register for WebAssign using your official *UTEP email account*. You will have a 14-day free trial so that you may access your coursework immediately.

Instructions to access and register for WebAssign:

To enter your course on WebAssign on January 18, go to www.webassign.net and follow these steps:

- 1) Click on “Enter Class Key”
- 2) Enter the class key given by your instructor in class or on Blackboard, be sure to include all three sections given:

utep #####

- 3) Verify the section number and instructor name, then enter your information. Please make sure that you use your UTEP miners email and that you remember the password that you create.
- 4) The next time you log in, click on “Log In” and enter your *UTEP miners e-mail* and the password that you created.

You are required to purchase an access code to log in as soon as possible and before the grace period ends. If you purchased a new book from the UTEP bookstore, the code should have come with it. When entering the code, enter all the words and characters in the boxes appropriately.

COURSE OVERVIEW

Course Objectives

Students will have a clear understanding of the ideas of Calculus as a solid foundation for subsequent courses in mathematics and other disciplines as well as for direct application to real-life situations. Topics include limits, continuity, differentiation, and integration of functions of a single variable.

Learning Outcomes

Upon successful completion of Math 1411 – Calculus I, a student will be able to:

- Compute limits and derivatives of algebraic, trigonometric, inverse trigonometric, exponential, logarithmic, and piece-wise defined functions.
- Compute definite and indefinite integrals of algebraic, trigonometric, inverse trigonometric, exponential, logarithmic, and piece-wise defined functions.
- Determine the continuity and differentiability of a function at a point and on a set.
- Use the derivative of a function to determine the properties of the graph of the function and use the graph of a function to estimate its derivative.
- Solve problems in a range of mathematical applications using the derivative of the integral; and
- Apply the Fundamental Theorems of Calculus.

Activities and Assignments:

You will find all assignments on www.webassign.net. Please use Mozilla Firefox, Google Chrome, or Safari since WebAssign works best with these browsers. All work, including homework, quizzes, and exams, will take place through WebAssign.

Three exams, with retake options, and a comprehensive final exam will be given.

Minimester and Test Out:

If a student receives a grade of “D” or “F”, then they may register for Minimester workshop or take a comprehensive Test Out exam. A grade of 70% or better in the Minimester course or a 70% or better on the comprehensive Test Out exam, will replace a failing course grade with a grade of “C”. (A grade change form will be signed and submitted by the coordinator for Math 1411, Dr. Julio Urenda).

Resources:

You will have course PowerPoint and video access through the Resources section of WebAssign and Blackboard. You can click on resources at the bottom of your WebAssign homepage and you will be able to access PowerPoint lectures from the publisher as well as the Cengage lecture videos for each section that we cover. In Blackboard, I will provide Worksheets for each section that include notes and practice problems.

Tutoring

The MaRCS tutoring center offers free tutoring for math classes, their website has more information: <https://www.utep.edu/science/math/marcs/>

There are several useful features in WebAssign designed to give extra help. These include “Watch it” and “Master it” links. These are publisher-created and have been enabled for every homework question in which they are available.

I am also available during office hours to help with questions.

Website

UTEP Math 1411 website: <https://www.utep.edu/science/math/classes/calculus/index.html>

Class Activity Settings

Homework Assignments

All homework will be completed on WebAssign. Each question has 5 attempts. I recommend you get help after the 3rd incorrect submission rather than waiting until you are out of attempts to get help.

The Ask Your Teacher feature of WebAssign is the best way to ask questions about your homework as it shows me the entire problem. You are encouraged to use this as your first method of contact whenever you have homework questions.

Quizzes

After a few sections of homework, you will have a 60-minute timed quiz over that material again on WebAssign. The quizzes may contain problems you have not seen previously, but they will be based on the same concepts.

The password for all quizzes is word ***ready***.

Each question has 3 attempts. If you choose to start a quiz less than 60 minutes before the due date, the quiz will conclude at the due date and your answers will be auto submitted. Please note, after you open the quiz assignment it will show an updated due date and time exactly one hour after you began that quiz. This is because it is a timed assignment that you cannot return to work on it later.

Exams

To review for each exam, an exam review will be available one week before the exam date, on WebAssign. The review is a homework score, so be sure to complete the reviews. The exams will be

available on WebAssign for 24 hours on the date specified by the course calendar and listed below. The exam itself is timed at 120 minutes (two hours) and will have an accessible scientific calculator. You have two attempts at each problem.

- Exam 1: Opens on Thursday, February 17, 2022, at midnight and closes at 11:59 PM Mountain Time.
- Exam 2: Opens on Tuesday, March 29, 2022, at midnight and closes at 11:59 PM Mountain Time.
- Exam 3: Opens on Thursday, May 5, 2022, at midnight and closes at 11:59 PM Mountain Time.

The password for all exams is word **ready**.

If you choose to start an exam less than 120 minutes before the due date, the exam will conclude at the due date and your answers will be auto submitted.

Retake Exams

A retake exam, for improvement, will appear on WebAssign after the original exam according to the class calendar and listed below. The best grade of the two will be recorded. You do not have to take the retake exam if you are satisfied with your original exam score. The retakes will be available on WebAssign for 24 hours on the date specified. The exam itself is timed at 120 minutes (two hours) and will have an accessible scientific calculator. You will have two attempts at each problem.

- Exam 1 Retake: Opens on Friday, February 25, 2022, at midnight and closes at 11:59 PM Mountain Time.
- Exam 2 Retake Opens on Friday, April 8, 2022, at midnight and closes at 11:59 PM Mountain Time.
- Exam 3 Retake: Opens on Thursday, May 12, 2022, at midnight and closes at 11:59 PM Mountain Time. (During finals week.)

The password for all retake exams is the word **ready**.

If you choose to start an exam less than 120 minutes before the due date, the exam will conclude at the due date and your answers will be auto submitted.

Final Exam

The final exam will be available for three days during final exam week. This exam is comprehensive and is required for all students. Remember, the final exam is worth 30% of your course grade. The final exam is timed at 165 minutes (2hr45min) and will have an accessible scientific calculator.

The password for the final exam is word **ready**.

The final exam will open at midnight Mountain Time on Tuesday, May 10, 2022, and close on Thursday, May 12, 2022, at 11:59 PM Mountain Time.

Timed Assignments:

For all timed assignments, the clock begins once you open the assignment. This clock will not stop for any reason, not even if you log out. For this reason, it is important to check for any updates on your computer

before beginning the timed assignments. The due date will change to reflect the time limit for timed assignments once you begin the quiz or exam.

Course Schedule:

A comprehensive course schedule is attached as the last pages of this syllabus. Semester highlights are included.

- January 18 First Day of Classes
- February 2 Census Day (Last day to drop without a W)
- March 14 – 18 Spring Break (No Classes)
- March 25 Cesar Chavez Day (No Classes)
- April 1 Drop Day (Last day to drop with a W)
- May 5 Last Day of Class Meetings
- May 9 - 13 Final Exam Week

Grading Policy

You will be graded on homework, quizzes, exams, and a final exam

- 10% Homework Assignments
- 15% Quizzes
- 15% Exam I
- 15% Exam II
- 15% Exam III
- 30% Final Exam

Letter grades are determined according to the following scale:

Grade	Score
A	90-100
B	80-89
C	70-79
D	60-69
F	<60

Drop Policy

The Drop Date for this semester is Friday, April 1, 2022, before 5:00 PM Mountain Time. No drops will be approved after this date or time.

Students who decide to drop the course must process a drop form, by sending an email from your official UTEP email account to records@utep.edu by October 29th before 5:00 PM MDT. When you email, be sure to do so from your miners' email account and include your full name, student ID number, and full class details such as the course name, number, and CRN. Please note that the College of Science will remain aligned with the University and **will not approve any drop requests after that date.**

Incomplete Grade Policy

Incomplete grades may be requested only in exceptional circumstances after you have completed at least half of the course requirements successfully. Talk to me immediately if you believe an incomplete is warranted. If granted, we will establish a contract of work to be completed with deadlines.

COURSE COMMUNICATION:

How we will stay in contact with each other

Because this is an online class, we won't see each other in the ways you may be accustomed to: during class time, small group meetings, and office hours. However, there are several ways we can keep the communication channels open:

- **Student Office Hours:** I will have office hours for your questions and comments about the course. Some of these will be virtual and some will be in my office on campus. See Blackboard for more information about times and availability.
- **Ask Your Teacher:** If you have a homework question, use the Ask Your Teacher feature located at the top right of every question to ask. This allows me to see your name, your assignment, and even the problem you are working on. Homework specific questions will only be answered via this format. I check twice daily; generally, in the morning and then again before shutting down for the day.
- **Course Messages:** Course messages in Blackboard is the best way to reach me for class related items or questions that are not homework specific. I am a coordinator and an advisor, and my inbox every day is crowded. I will respond to Blackboard Course Messages twice daily and always before checking regular UTEP email. This is most definitely your best option at getting my response more quickly.
- **Email:** UTEP e-mail is a way to contact me. I will make every attempt to respond to your e-mail within 24-48 hours of receipt. When e-mailing me, be sure to email from your UTEP student account and please put the course number in the subject line. In the body of your e-mail, clearly state your question. At the end of your e-mail, be sure to put your first and last name, and your university identification number.
- **Announcements:** Check the Blackboard and WebAssign announcements frequently for any updates, deadlines, or other important messages. All Blackboard announcements will also be sent as an email to your UTEP account.

ADDITIONAL COURSE POLICIES AND STATEMENTS

Make-up Policy

Homework

An automatic homework extension can be requested within 7 days after the due date. To do so, log in to WebAssign and click on My Assignments. Scroll to the assignment you want to extend and click Request Extension. Select "Automatic" and "Accept" the extension. The new due date will be 48 hours from the time the extension is requested. Note, this means that the **time due** will also change. No penalty will be applied to problems submitted after the original due date. You may extend each homework assignment one time only so be sure you are ready to do the work when you accept the extension.

You may not view the key to a homework assignment before requesting the automatic extension for it.

Quiz

There are no automatic extensions for quizzes. Quizzes are available before their due date. Please make plans to take the quiz early if you have a conflict.

If you feel like you have some extenuating circumstance or have an excused absence that will keep you from completing the assignment or quiz promptly, please contact me right away and be prepared to show supporting documentation.

University Sponsored Events:

These include conferences, student athletes' competitions, etc.... The student needs to inform me of any traveling conflicts before they leave and make adequate arrangements to make up the missed material with one week of returning. Failure to do so will result in the forfeiture of points.

Exams

A make-up exam will only be given in extraordinary circumstances such as severe illness or death in the immediate family, and with appropriate documentation (e.g., doctor's note).

Alternative Means of Submitting Work in Case of Technical Issues

I strongly suggest that you submit your work with plenty of time to spare if you have a technical issue with the course website, network, and/or your computer. I also suggest you save all your work (answers to discussion points, quizzes, exams, and essays) in a separate Word document as a backup. This way, you will have evidence that you completed the work and will not lose credit. If you are experiencing difficulties submitting your work through the course website, please contact the [UTEP Help Desk](#).

You can email me your backup document as a last resort. You must also have proof of the technical issue with either a screenshot or email from your internet provider of an outage in your area.

Attendance Policy:

You are expected to work toward the completion of the course assignments daily. Attendance in this course is measured by your completed tasks. Failing to complete tasks is equivalent to being absent. Failure to complete assignments for several weeks may result in you being dropped from the course. You are expected to check Blackboard and your UTEP Miners email regularly for announcements as well as the WebAssign Announcement section.

Academic Integrity Policy:

The University policy is that all suspected cases or acts of alleged scholastic dishonesty must be referred to the Dean of Students for investigation and appropriate disposition. Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an examination for another person, any act designed to give an unfair advantage to a student or the attempt to commit such acts.

Each student is responsible for notice of and compliance with the provisions of the Regents' Rules and Regulations, which are available for inspection electronically at <https://www.utsystem.edu/offices/board-regents/regents-rules-and-regulations>.

All students are expected and required to obey the law, to comply with the Regents' Rules and Regulations, with System and University rules, with directives issued by an administrative official during his or her authorized duties, and to observe standards of conduct appropriate for the University. A student who enrolls at the University is charged with the obligation to conduct himself/herself in a manner compatible with the University's function as an educational institution.

Any student who engages in conduct that is prohibited by Regents' Rules and Regulations, U. T. System or University rules, specific instructions issued by an administrative official or by federal, state, or local laws is subject to discipline, whether such conduct takes place on or off-campus or whether civil or criminal penalties are also imposed for such conduct.

Course Netiquette Policy:

All correspondence with your instructor, TA, and other students should be conducted appropriately and professionally. Please be considerate of your tone and word choice in all your correspondence.

Accommodation Policy:

The University is committed to providing reasonable accommodations and auxiliary services to students, staff, faculty, job applicants, applicants for admissions, and other beneficiaries of University programs, services, and activities with documented disabilities to provide them with equal opportunities to participate in programs, services, and activities in compliance with sections 503 and 504 of the Rehabilitation Act of 1973, as amended, and the Americans with Disabilities Act (ADA) of 1990 and the Americans with Disabilities Act Amendments Act (ADAAA) of 2008. Reasonable accommodations will be made unless it is determined that doing so would cause undue hardship on the University. Students requesting an accommodation based on a disability must register with the UTEP Center for Accommodations and Support Services (CASS). Contact the Center for Accommodations and Support Services at 915-747- 5148 or email them at cass@utep.edu, or apply for accommodations online via the CASS portal.

COVID-19 Precautions

Please stay home if you have been diagnosed with COVID-19 or are experiencing COVID-19 symptoms. If you are feeling unwell, please let me know as soon as possible, so that we can work on appropriate accommodations. If you have tested positive for COVID-19, you are encouraged to report your results to covidaction@utep.edu, so that the Dean of Students Office can support you and help with communication with your professors. The Student Health Center is equipped to provide COVID 19 testing.

The Center for Disease Control and Prevention recommends that people in areas of substantial or high COVID-19 transmission wear face masks when indoors in groups of people. The best way that Miners can take care of Miners is to get the vaccine. If you still need the vaccine, it is widely available in the El Paso area and will be available at no charge on campus during the first week of classes. For more information about the current rates, testing, and vaccinations, please visit epstrong.org

Please contact me immediately if you fall ill during the semester so that we can work together to formulate a strategy to help you get caught up as soon as you are physically able.

Military Statement:

If you are a military student with the potential of being called to military service or training during the semester, you are encouraged to contact me as soon as you receive your orders.

Copyright Statement:

Course Materials

All materials used in this course are protected by copyright law. The course materials are only for the use of students currently enrolled in this course and only for this course. They may not be further disseminated.

Class Recordings

The use of recordings will enable you to have access to class lectures, group discussions, and so on in the event, you miss a synchronous or in-person class meeting due to illness or other extenuating circumstances. Our use of such technology is governed by the Federal Educational Rights and Privacy Act (FERPA) and UTEP's acceptable-use policy. A recording of class sessions will be kept and stored by UTEP, FERPA, and UTEP policies. Your instructor will not share the recordings of your class activities outside of course participants, which include your fellow students, teaching assistants, or graduate assistants, and any guest faculty or community-based learning partners with whom we may engage during a class session. You may not share recordings outside of this course. Doing so may result in disciplinary action.

COURSE RESOURCES:

Where you can go for assistance UTEP provides a variety of student services and support:

Academic and Technology Resources

- [Help Desk](#): Students experiencing technological challenges (email, Blackboard, software, etc.) can submit a ticket to the UTEP Helpdesk for assistance. Contact the Helpdesk via phone, email, chat, website, or in-person if on campus, Academic Resources.
- [UTEP Library](#): Access a wide range of resources including online full-text access to thousands of journals and eBooks plus reference service and librarian assistance for enrolled students.
- [Math Tutoring Center \(MaRCS\)](#): Ask a tutor for help and explore other available math resources.

Individual Resources

- [Military Student Success Center](#): Assists personnel in any branch of service, and their dependents, to reach their educational goals.
- [Center for Accommodations and Support Services](#): Assists students with ADA-related accommodations for coursework, housing, and internships.
- [Counseling and Psychological Services](#): Provides a variety of counseling services including individual, couples, and group sessions as well as career and disability assessments.
