

**BIOL 2340: Introductory Neuroscience – Spring 2021**  
Asynchronous

**Professor:** Travis Moschak  
**E-mail:** tmmoschak@utep.edu  
**Office Hours:** Email me to schedule a virtual or audio appointment M-F

**Required Text:**

Purves, Augustine, Fitzpatrick, Hall, LaMantia, Mooney, Platt & White (2018). **Neuroscience 6<sup>th</sup> edition**, Oxford University Press. ISBN: 9781605353807. \*Note that the hard copy, loose leaf, or ebook version are all fine as long as it is 6<sup>th</sup> edition. Supplemental required reading is also provided on Blackboard.

**Course Description:**

This course begins with the study of neuronal structure and function, and the propagation of nerve impulses and the transfer of information between cells. We then move to the sensory systems such as olfaction, hearing, and vision and discuss how physical energy such as light is converted into neural signals, where these signals travel in the brain, and how they are processed. Next we study the control of voluntary movement. Finally, we cover higher brain functions and homeostasis, including the neurochemical bases of brain diseases and the systems which control motivation, emotion, learning and memory. The knowledge gained in this course will provide an appropriate background for students planning to pursue careers in neuroscience research, medicine or the allied health fields, or education. **Prerequisites: Undergraduate student in good standing. Psychology 1301 or Biology 1305 and 1107 with a C or better.**

**Learning Objectives:**

This course will provide a broad introduction to nervous system structures and functions. At the end of the academic term, students who successfully complete this course will be able to: 1) define the organization of the central and peripheral nervous system; 2) explain the properties of nervous system cells including the propagation of electrical signals and cell-cell communication; 3) describe the various neurotransmitter systems and how they operate within systems or circuits; and 4) demonstrate an understanding of the diagnostic and research methods used in neuroscience research and medicine.

**Accommodations and Support Services:**

If you have a disability and need classroom accommodations, please contact The Center for Accommodations and Support Services (CASS) at 747-5148, by email to [cass@utep.edu](mailto:cass@utep.edu), or visit their office located in UTEP Union East, Room 106. For additional information, please visit the CASS website at [www.sa.utep.edu/cass](http://www.sa.utep.edu/cass). The instructor must be notified by CASS by the end of the first week of classes to facilitate accommodations support implementation.

**Blackboard:**

Everything you need for this class can be found on Blackboard. Please check Blackboard for announcements at least once per week. Blackboard is also where you will find online quizzes and other supplemental materials relevant to the course. Make sure you check your email regularly for updates from me via Blackboard. If you are not receiving emails from Blackboard, reach out to UTEP tech support (number provided below).

### **Virtual Attendance (asynchronous):**

To do well in this course, you are required to watch every lecture video and stay on top of the course videos. Lectures will be uploaded every Monday and Wednesday. You are strongly encouraged to watch the Monday lectures on Monday, and so on, so that you do not fall behind. Respondus Lockdown pop quizzes will occur randomly throughout the semester and will be based on the lecture material (and are worth extra credit, see below). Watching is the key to success in this course, and historically – students that regularly keep up with the lectures end up performing better in Dr. Moschak’s online courses than those who do not.

### **Grades:**

#### **Exams: 400pts**

- There will be 4 exams, each worth 100 points during the course of the semester (dates below).
- Combinations of multiple choice, short answer and/or essay, matching, true/false, labeling or fill in the blank questions will be included.
- **No test scores will be dropped. No make-up exams will be administered under any circumstances, no matter how compelling.**
- The majority of the exam will be focused on lecture material, but 10-20% will be from the book (and most of the book questions will be *very* similar to the Blackboard textbook quizzes). Note that the final is 50% cumulative.
- **Exams will take only 90 minutes and are timed.** If you require any additional time or accommodation you must provide appropriate documentation at least one week prior to the first exam.
- All exams will be available on Blackboard for a 48 hour window, during which you can take the exam at your convenience; however, be advised that if you run into technical issues in the middle of the night, I won’t be able to assist you until the next day.
- **No make-up exams will be administered under any circumstances, no matter how compelling. You must take the exam during the allotted 48 hour window.**
- Exams require you to use Respondus Lockdown, a program that will “lock” you out of being able to use other websites or items to take the exam. No notes, books, power points, electronic devices, devices that transmit audio or materials are allowed during the exams. You are also prohibited from discussing the exam with each other during the 48 hour exam window. However, you are strongly encouraged to study together virtually before the window begins. You should download Respondus Lockdown and install it on your computer ASAP:  
[https://www.utep.edu/technologysupport/ServiceCatalog/BB\\_Tool\\_RespondusLockdown.html#S03](https://www.utep.edu/technologysupport/ServiceCatalog/BB_Tool_RespondusLockdown.html#S03)

#### **Assignments: 100pts**

- **Homework Worksheets (25pts each)**
  - A large part of this course involves reading and thinking critically. To facilitate this, there will be 4 homework assignments to learn about a specific topic in neuroscience. These homework assignments will be due at 11:59pm on the dates listed on the syllabus calendar.

### Extra Credit:

- **Asynchronous Textbook Quizzes (5pts)**
  - A total of 14 quizzes will be available on Blackboard throughout the semester. These will consist of multiple choice and true false questions. *Quiz questions will come from the reading assignments NOT from the lecture.* They will only be available during the week corresponding to that reading assignment (so if you are supposed to read chapter 2 by the end of the first week, the chapter 2 quiz will expire on Friday of the first week of classes, etc). The quizzes will expire at 11:59pm each week on Friday.
  - I will also provide a syllabus quiz, which will expire on census day (February 3<sup>rd</sup>). If you take the syllabus quiz it will replace your lowest quiz grade at the end of the semester.
  - Quiz bonus points will be calculated as follows: (points earned divided by 140) multiplied by 5. The quiz total for each individual will be added to your total grade once the other 500 points have been completed (e.g., if you get all 500 and still earn 5 quiz points, your final grade will be 505/500).
- **Respondus Lockdown Lecture Pop Quizzes (??)**
  - Occasionally there will be unannounced pop quizzes, and you will have the opportunity to earn extra credit based on performance on these quizzes. These will typically only be open for 24 hours at the most. There will be 2.5-5pts possible via in class pop quizzes between each exam, and points will be added to the exam that follows the quiz. For example, a quiz occurring after Exam 1 will mean that any points earned get added to the Exam 2 grade.
  - The goal of these is to familiarize you with the Respondus program, and allow you to check for any technical issues with your wifi/internet service.
  - You are not permitted to use other devices, the internet or your book/notes during these pop quizzes. These quizzes are designed to help you prepare for the test environment.
- **Extra Credit Homework (10pts)**
  - There is one extra homework assignment that you can do to help boost your grade at the end of the semester. This worksheet is focused on racism and ethics in neuroscience, and the instructor strongly encourages every student to complete this worksheet. This worksheet will be worth up to 10 points extra credit (added to your total out of 500 at the end of the semester), and you can turn it in any time during the semester, but it must be completed on Blackboard no later than 11:59pm on Wednesday May 5<sup>th</sup>. Late assignments will not be eligible for extra credit.
- **Group Review Extra Credit (4pts)**
  - There will be an asynchronous review session before each exam where you can review with your classmates via chat. For each session you participate in you can earn 1 extra credit point.
- **Exam Extra Credit (??)**
  - There are typically 1-2 extra credit questions on each exam. These are extra, and if you get them wrong you will not be penalized but answering them correctly will get you full or partial extra credit points. They are typically more difficult than the rest of the exam questions and will usually be worth 2.5-5pts extra added to each exam grade.

**Academic Dishonesty:** Academic dishonesty is prohibited and is considered a violation of the UTEP Handbook of Operating Procedures. It includes, but is not limited to, cheating, plagiarism, and collusion. Cheating may involve copying from or providing information to another student or possessing

unauthorized materials during a test. Plagiarism occurs when someone intentionally or knowingly represents the words or ideas of another person's as one's own. Collusion involves collaborating with another person to commit any academically dishonest act. Any act of academic dishonesty attempted by a UTEP student is unacceptable and will not be tolerated. Violations will be taken seriously and will be referred to the Dean of Students Office (Office of Student Conduct and Conflict Resolution) for possible disciplinary action. Students may be suspended or expelled from UTEP for such actions.

### **Important Contact Information**

University Counseling Center	202 Union West 747-5302
Center for Accommodations and Support Services	106 Union East 747-5148
University Career Center	103 Union West 747-5640

**Final Grade Calculation:** Final grades will be calculated as follows (points earned + extra credit/500) x 100.

### **Grading scale:**

A = 90.0-100.0%  
B = 80.0-89.9%  
C = 70.0-79.9%  
D = 60-69.9%  
F < 60.0%

### **Please note that grades will not be "rounded up".**

If you have any questions or disputes regarding grades, you must raise these in writing within ten days of the grade being released. Grades will only be changed in cases of administrative error. The instructor does not hand back exams, if you wish to see your exam after it has been graded, you must schedule an appointment to come meet with the instructor or with the TA. Typically, the TA will meet with you first and if you have lingering questions, Dr. Moschak can also meet with you.

If you have a problem with the grading policies outlined above, you are welcome to drop the course before the drop deadline. If you disagree with your final grade in this course, despite the clear outline above of the way grades are calculated, you are welcome to file a complaint to the Chair of the Biological Sciences Department or the UTEP grievance committee. Note that there is already information about extra credit written above. Do not ask for additional extra credit opportunities beyond what is provided on the syllabus or in class to the entire group.

**Class Schedule:** Lecture title bold, reading (to be completed prior to viewing the lecture), RED indicates assignment deadlines. Yellow highlight indicates Exams. Lectures will be posted by the dates listed below.

W	01/20	<b>Course overview</b> <b>State of the Field</b> <i>Chapter 1</i>
M	01/25	<b>The neuron: structure and function</b> <i>Chapter 1&amp;2</i>

- W 01/27 **Membrane Potential**  
*Chapter 2&3*
- M 02/01 **Action Potential**  
*Chapter 3&4*
- W 02/03 **Neurochemistry: Synaptic Transmission**  
*Chapter 5&6*  
Census day – Syllabus Quiz Expires at 11:59pm
- M 02/08 **Neurochemistry: Neurotransmitter Systems**  
*Chapter 6&7*
- W 02/10 **Flex/Exam Review, Group Review Opens**
- S 02/14 **Homework 1 due at 11:59pm via Blackboard Assignments**
- T 02/16 **Group Review Closes**
- W 02/17 **Exam 1** covering chapters 1-7  
**Exam 1 opens at 12:00am – closes at 11:59pm on Thursday 02/18**
- M 02/22 **Vision & Olfaction**  
*Chapter 11&12*
- W 02/24 **Hearing & Vestibular Systems**  
*Chapter 13&14*
- M 03/01 **Somatic Sensory System & Pain Processing**  
*Chapter 9 & 10*
- W 03/03 **Spinal & Brain Control of Movement, Group Review Opens**  
*Chapter 17&18*
- M 03/08 **Flex/ Exam Review**
- T 03/09 **Homework 2 due at 11:59pm via Blackboard Assignments, Group Review Closes**
- W 03/11 **Exam 2** covering chapters 9-14, 17-18  
**Exam 2 opens at 12:00am – closes at 11:59pm on Thursday 03/11**
- 03/15 – 03/19 *Spring Break*
- M 03/22 **Motivation, Feeding & Sex**  
Supplemental Reading: <http://nobaproject.com/modules/drive-states>

- W 03/24 **Emotion & Stress**  
*Chapter 31*
- M 03/29 **Language**  
*Chapter 33*
- W 03/31 **Alterations of Consciousness, including sleep and addiction**  
*Chapter 28*  
Supplemental Reading <http://nobaproject.com/modules/psychopharmacology>
- M 04/05 **Flex/ Exam Review, Group Review opens**
- T 04/06 **Homework 3 due at 11:59pm via Blackboard Assignments**
- S 04/11 **Group Review closes**
- M 04/12 **Exam 3** covering chapters 28, 31, 33 and supplemental readings  
**Exam 3 opens at 12:00am – closes at 11:59pm on Tuesday 4/13**
- W 04/14 **Synaptic Plasticity**  
*Chapter 8 and 25*
- M 04/19 **Learning & Memory**  
**Evolution of Cognitive Functions**  
*Chapter 30 and 34*
- W 04/21 **Learning & Memory**  
**Evolution of Cognitive Functions**  
*Chapter 30 and 34*
- M 04/26 **Mental Illnesses**  
Supplemental Readings:
  - <http://nobaproject.com/modules/history-of-mental-illness?r=NDY5NjlsNDE5Nzq%3D>
  - <http://nobaproject.com/modules/schizophrenia-spectrum-disorders?r=NDY5NjlsNDE5Nzq%3D>
- W 04/28 **Flex/Exam Review, Group Review Opens**
- S 05/02 **Homework 4 due at 11:59pm via Blackboard Assignments**
- T 05/03 **Group Review Closes**
- W 05/05 **Extra Credit Homework Due at 11:59 via Blackboard Assignments**

TBD

**FINAL EXAM TIME AND DATE TBD**

50% of the final exam will be on material covered after Exam 3 (chapters 24-25, 30, 34 and supplemental readings). The other 50% of the exam will be cumulative information from the rest of the course. ANY material from lecture or reading might appear on the final exam, but material from lectures are more likely to appear on the final.

**Exam 4 will be open for 24 hours like all other exams, date/times TBD.**

**\*\*Please note: The syllabus is subject to change during the semester. Please make sure I have your best email contact information, to insure you always have the most up to date version of the syllabus. I will also always post the most recent version to Blackboard.**

**Virtual Classroom Courtesy**

Please adhere to the following:

1. Be mindful of your behavior and language online. Remember that members of the class and the instructor will be reading any postings.
2. Respect and courtesy must be provided to classmates and to instructor at all times. No harassment or inappropriate postings will be tolerated.
3. When reacting to someone else's discussion board post or in class questions, address the ideas, not the person. Post only what anyone would comfortably state in a F2F situation.
4. Blackboard is not a public internet venue; all postings to it should be considered private and confidential. Whatever is posted on these online spaces is intended for classmates and professor only. Please do not copy documents and paste them to a publicly accessible website, blog, or other space. If students wish to do so, they have the ethical obligation to first request the permission of the writer(s).
5. No solicitations. This includes "note takers for hire" and similar paid for tutoring services.

**Frequently Asked Questions:**

**Q: What technology do I need to take this course?**

A: Course content will be delivered through Blackboard. The main requirements are a device (tablet or computer) that can connect to the internet and that has a webcam (for Respondus Lockdown exams). Most of the course material (except exams) can also be viewed on smartphones. Google chrome is the most supported browser for Blackboard; however, joining live lecture on an Apple smartphone (e.g., iPhone) requires Safari. You will also need Microsoft Office (for MS Word) to complete assignments. You can contact the UTEP Help Desk if you have any issues with technology. We will also use Slack for group activities. Please be sure to join the Slack for our course (link on Blackboard) no later than one week before the first group day. There is also an app for smartphones, if you want to participate in the group activity from your smartphone instead of a computer or tablet. Note that technical difficulties are not a valid excuse for late work, as deadlines are posted in advance. It is up to you to avoid waiting until the last minute to submit an assignment, to avoid technology-related errors or delays in upload speeds.

Note that as UTEP changes its software offerings, it is possible we might also use Zoom for this course. Any changes from Blackboard to Zoom for lectures would be announced via Blackboard.

**Q: What happens if a personal medical emergency or family emergency occurs during the semester?**

A: If your personal or family circumstance limits your ability to perform in one or more courses, you should first take care of the emergency situation by contacting the proper medical officials. Upon discharge, please obtain documentation from your doctor that you had an emergency with dates of the event. If you will be out for longer than a day or two you should contact the CASS office, and your academic advisor to determine options. For example, if the emergency impacts all of your classes, you can apply for a complete medical withdrawal through the registrar's office. If this occurs to you, please contact CASS first ([cass@utep.edu](mailto:cass@utep.edu)) to determine how to proceed with medical paperwork. It is the policy of the Department of Biological Sciences not to permit selective withdrawals due to medical/family emergencies. In other words, if you want to withdraw from only Dr. Moschak's course, and not your other courses, due to a medical circumstance or family emergency, the request will likely be denied without clear justification. In extremely rare cases, students might also be eligible for an incomplete. If you believe you are experiencing one of those rare circumstances, please contact CASS first, and then your academic advisor before approaching the instructor about an incomplete.

**Q: What happens if I think someone in the course is engaging in academic dishonesty (cheating, plagiarism, etc)?**

A: UTEP takes academic dishonesty very seriously. If you notice suspicious behavior during an exam or suspect academic dishonesty is occurring, please notify Dr. Moschak. Dr. Moschak might file a formal report to the Office of Student Conduct and Conflict Resolution (OSCCR). If he does, you are welcome to remain anonymous in reporting the suspected offense. To remain anonymous, simply let Dr. Moschak know that you wish to remain anonymous when you report the behavior to him via email or in person.

**Q: The review sheets are really long. Is there any way to get a shorter version?**

A: The review sheet is designed as a tool to help you focus your study efforts on the most important information. They need to be long in order to cover all possible information that might appear on an exam. If you don't want to do the review sheet, don't do it. However, completing the review sheet, and taking it like a practice test is the best way to study for the exams in this course.

**Q: What should I expect for the exam review sessions?**

A: In class exam review sessions are Dr. Moschak's way of helping you narrow down the breadth of information into specific areas you should focus on the night/nights before the test. To get the most out of the review session, you should view the lectures as they are uploaded. During the review session, come with your review sheet already completely filled out. If you don't study before the review session, it will be too late to master all of the information for the exam – so fill out the review sheet each day after class so that by the review session, you have a complete/nearly complete document. The best thing to do during the review is to write down the questions, not the answers. If you have the questions,

you can spend the evening finding the answers on your own – and that will prepare you VERY well for the exam.

**Q: I have lots of other exams during our exam window. Is there any way to take the exam early?**

A: No. Exam dates are “set in stone” and must be taken during the posted exam window. If you do not take the exam within the window, it will be an automatic zero.

**Q: I know Dr. Moschak provides the slides as a PDF, but I want the powerpoint version so I can take notes in powerpoint. Can I get a powerpoint file?**

A: No. Dr. Moschak only provides a PDF to encourage you to take notes directly on the review sheet or on blank paper/word documents. This strategy is much more effective for learning and retaining information, as the cues are more similar to what you will see on the exam.

**Q: I have a disability or medical condition that requires accommodation support. What options does Dr. Moschak provide for these circumstances?**

A: Dr. Moschak will work with CASS to determine appropriate accommodations for your specific needs. If you wish to get accommodations, you must enroll at CASS and have CASS notify Dr. Moschak at least 1 week before the first exam. Dr. Moschak will reply within 5 business days (to you and CASS) with a list of accommodations that can be offered based on your specific needs and the course. If a medical emergency occurs during the semester, contact Dr. Moschak via email ASAP, and work to obtain a doctor’s note with specific dates.

**Q: Should I wait until after the lecture on the material to take the textbook quiz related to that material?**

A: No. Textbook quizzes are based on the reading, not the lecture and since you should read before the lecture on that corresponding topic, you do not need to wait for Dr. Moschak to cover something before taking a quiz on that subject. Take the textbook quizzes early, to avoid missing their availability window.

**Q: I am not happy with my grade, and think I should drop. How can I do this?**

A: To drop this class, please contact the [Registrar’s Office](#) to initiate the drop process. If you cannot complete this course for whatever reason, please contact me. Often students might be incorrectly estimating their performance in the class, and I am always happy to discuss your grade via video chat or secure communication if you have questions.

## Other Resources

- [UTEP Library](#): Access a wide range of resources including online, full-text access to thousands of journals and eBooks plus reference service and librarian assistance for enrolled students.
- [Help Desk](#): Students experiencing technological challenges (email, Blackboard, software, etc.) can submit a ticket to the UTEP Helpdesk for assistance. Contact the Helpdesk via phone, email, chat, website, or in person if on campus.
- [University Writing Center \(UWC\)](#): Submit papers here for assistance with writing style and formatting, ask a tutor for help and explore other writing resources.
- [Math Tutoring Center \(MaRCS\)](#): Ask a tutor for help and explore other available math resources.
- [History Tutoring Center \(HTC\)](#): Receive assistance with writing history papers, get help from a tutor and explore other history resources.
- [Military Student Success Center](#): UTEP welcomes military-affiliated students to its degree programs, and the Military Student Success Center and its dedicated staff (many of whom are veterans and students themselves) are here to help personnel in any branch of service to reach their educational goals.
