A monolingual perspective of language and literacy development is not enough for understanding, developing and assessing biliteracy.

(Crosjean, 2018)

**COURSE DESCRIPTION**

Identification of principal problems and issues of primary and second language acquisition, specifically the relationship between the development of these languages to facilitate and promote biliteracy. Emphasis will be given to critical perspectives and social cultural, cognitive, and linguistic factors that influence in the biliteracy process. In addition, traditional assumptions about bilingual students and biliteracy education will be challenged. Biliteracy instruction, matters of transfer, and holistic biliteracy assessment will also, be explored.

**COURSE OBJECTIVES:** Research, reflections, documentation and learning shape our pedagogy. This course challenges traditional perspectives in literacy education of emergent bilinguals. The focus is on biliteracy, including but not limited to, reading and writing in two languages. It emphasizes *translanguaging* as a pedagogical practice that utilizes bilingualism as a resource. Biliteracy is viewed as interdependent processes across both languages; consequently, knowledge and skills acquired in one language are accessible in the other language. Emphasis is on intentionally and purposefully, connecting Spanish and English literacy environments through holistic pedagogical practices: Side by Side Spanish Language Arts/English Language Arts and Reading Standards; Holistic Assessments; Bidirectional Transfer and Metalinguistic/Cross Language Practices. It is grounded in the understanding that the teaching and learning contexts influence the opportunities and developments of biliteracy.

- Research and examine critical perspectives of biliteracy;
- Research and analyze the concepts of *simultaneous* and *successive* biliteracy development;
- Examine cultural, social, political, and linguistic issues that impact biliteracy education;
- Research, examine and define *translanguaging* as a pedagogical practice in its role in biliteracy education;
- Research and analyze the implications for policy and practice in biliteracy education;
- Research and examine biliteracy education in practice.

**COLLEGE'S CONCEPTUAL THEME**

This course aligns with the University and College of Education's mission and vision in addressing the preparation of professionals and the investigation of issues and challenges in schooling with a special emphasis and support for student learning and development within linguistically and culturally diverse border region settings.

When writing a **reaction** response, you are expected to demonstrate a grasp of the topic, analytical skills, and the ability to communicate reactions to the reader. Understand the purpose of the reaction. Reaction responses require that you think carefully about what you feel or think about the text/video. Start your reaction response with your introduction that includes the topic you are reacting to, and write it concisely, *preferably* in one sentence. End with your conclusion. Conclude with a restatement of your reactions.

Select one of the following and describe what you propose to use. Gather data; analyze; provide your findings/recommendations; support with research.

1. Analyze the language policy in your (a) school. Show how it fosters or deters the development of metalanguage and biliteracy development.
2. Gather assessment instruments used in two languages in literacy development. How might you use reading assessments in two languages as tools to look at the biliterate reading development of students?
3. Gather writing samples/data in Spanish and English for the same student. How can you discuss literacy/biliteracy development? How can you use this data to strengthen biliteracy instruction?

### **Self-Narrated Video: Creating a Community of Learners**

Introductions are an effective way to meet your classmates and professor - a first impression! However, if the introduction is not created with care and some planning, it can easily turn into a first impression you want to take back. In 1-3 PowerPoint presentation slides that must include one picture of yourself and a voice over of 2-3 minutes only, introduce yourself to the class.

In your presentation, talk about yourself, what biliteracy is *to you*, and include what you learned from the two videos. You will be graded according to the rubric found below. Submit your assignment by creating a blog entry and attaching your presentation file in the designated area in Blackboard. Be sure to respond to 2 classmates as part of creating a community of learners.

Included below are web links that guide you in the development of Voice Over. This can be done for any power point. Check your entry and make sure the sound is loud enough to hear, and that there are no technology issues because of what you decided to use to post. This is your responsibility. Name your file by your name and introduction. For more information about how to include narrative in presentations, use the following links.

Interpretation	Postings reflect understanding, insight, and reflection about the <i>topic and the assigned perspective</i> . The message uses sources, required reading sources. In addition, it demonstrates that the group has gained new understanding of the <i>topic and the assigned perspective</i> .	Postings provide some insight, understanding, insight, and reflective thought about the <i>topic and the assigned perspective</i> . Some messages do analysis or interpretation well, but a significant number do not. This might be because the analysis was not done well or because it was not attempted (that is, <i>was simply opinion</i> ).	Postings show no evidence of insight, understanding, insight, and reflective thought about the <i>topic and the assigned perspective</i> . Message generally shows little evidence of analysis, consisting instead of opinion and feelings and impressions.
Writing Skill	Sentences are clear and wording is unambiguous. Correct word choice, correct spelling, correct grammar.	Ordinary, good writing. Lapses are regular and patterned, but do not undermine communication or the persuasiveness of the argument.	Grammar, spelling, and/or word choice errors are frequent enough that the sense of the messages is lost or muddled.
