A NOTE ON LEARNING DURING COVID-19

I am glad you are here. These are extra stressful times, and we will acknowledge this in our work together. Why? Because stress interferes with learning. In contrast, wellness makes learning possible. Whenever our goal is learning, we must prioritize well-being. In this class, your well-being is my top priority. We will intentionally focus on building a supportive learning community, helping each other navigate the additional stress of the pandemic, and approaching each other with compassion, humanity, and flexibility. Please do not be afraid to share what is going on for you—I will work with you to find ways to navigate these challenges and still experience the joy and accomplishment of learning in this course.

COURSE DESCRIPTION

This course is an introduction to teaching emergent bilingual students (or English learners/ELs, students who are proficient in a language other than English and are learning English in school) in secondary schools. It focuses on the theory and practice of both bilingual education and English as a second language instruction. Included are linguistic concepts; theories of language learning; program models in bilingual/ESL education; their historical, legislative, and philosophical foundations; issues in content and language assessment for ELs; instructional strategies for teaching ELs; and, in particular, instruction for bilingual US-Mexico border populations. ***At its core, this course is about advancing educational equity and social justice in the ways we use and teach language in schools.***

**DRIVING
QUESTION
FOR THE
COURSE**

How can we make education more equitable for English learners by ensuring they have access to content in language(s) they understand, to English language development, and to schooling in which their whole social and linguistic identities are valued?

ASSIGNMENTS

Learning in interaction: Educational research shows that our deepest and most meaningful learning happens in interaction with other people. This course is designed so that most of the work requires you to interact with others—a small group, the whole class, an individual K-12 student. Even the work you do as an individual will prepare you for interactive work through reading and reflection on your learning.

Small group (family) work: You will be assigned to a small group—we will call them families in this class—for the semester. As in real families, individuals do well when the whole family does well. In your small group family, you will invest in each other and care for each other. Some of your family work will be graded as a family (i.e., you hand in one thing and all members get the same grade) and some will be graded as individuals (i.e., you are graded on your own contributions to work you do together). In both cases these assignments are marked below as “family.”

Individual work: A few assignments described below you will do individually and they are graded individually. These are marked below as “individual,” though remember, that this work is also preparing you for your work in interaction with others.

Regular assignments

The following assignments you will do on a regular basis:

1. Weekly reading and reading quizzes (ind) [10 points each, 21% of grade]

In preparation for our work together each week, you will read one chapter in our course textbook, and occasionally you will have another brief reading in addition to the chapter. All readings are listed on the course schedule and on BB. Do the reading first each week, before any other activities. Then take the weekly reading quiz on BB. These quizzes are designed to evaluate your readiness for that week's interactive activities. Quizzes will focus on the **key terms and guiding questions** appearing at the beginning of each chapter (and occasionally important terms appearing in the chapter but not listed at the beginning). These are done individually and graded individually.

2. Online small group family discussions [10 points each, 10% of grade]

In a small group discussion with your family group, you will deepen your understanding of the reading and apply it to classroom situations, often by watching a video of classroom instruction and analyzing it together. These will happen on BlackBoard (your small family discussion board). You will discuss questions like, "Which strategies that you read about this week do you see the teacher doing in this video? When? How?" or "If you were the teacher and doing this teaching segment over again, how would you incorporate the strategies we read about this week?" You will receive full credit for **posting at least two times** in each small group family discussion, for citing specific moments in the videos or scenarios and specific details from the readings to support your answers, and for responding to your groupmates' posts (ask them questions, push their thinking). Done in family groups, graded individually.

3. Online whole class discussions [10 points each, 11% of grade]

In other weeks, you will participate in a whole class discussion (on Blackboard). Similar to small group family discussions, you will deepen your understanding of the readings and apply it to classroom situations. You will receive full credit for **posting at least two times** to the whole class discussion on BB, for sharing a specific position on the discussion prompt, providing specific reasons/justification from the reading or video, and building on what others have already said in the whole class discussion. Done in the whole class group, graded individually.

4. Scenario solutions (family) [10 points each, 8% of grade]

This activity will be done toward the end of the week and done in your family group (on Blackboard, family group discussion board). In the activity, you are presented with a scenario, one question about that scenario, and four multiple choice answers. **Questions are similar to those appearing on the TExES ESL Education Supplemental (154) certification exam and the Bilingual Education Supplemental (164) certification exam** (the two exams cover similar content). As a group, you will discuss, debate, dialogue, and problem-solve to determine the best answer to the question. Then you will choose the correct answer as a group, but you will also need to give a well-thought out rationale for choosing the answer you did, and then a rationale for each answer you did not choose. That is, your group will need to construct responses telling me **WHY** you chose the answer you did as a group and **WHY** you believe it is the answer, and then tell me **WHY** you **DID NOT** choose the other answers and **WHY** you believe

they ARE NOT the answers. You are also required to **connect your rationales to concepts from that week's materials and activities**. You will receive credit for the correct answer, the quality of your rationales, and the SPECIFIC connections you make to that week's materials and activities. Done in your family group, graded as a group.

Special assignments

These assignments are done at particular times in the semester.

5. Photovoice project (family)—Weeks 2-4 [35 points, 5% of grade]

The first order of business for any teacher must be knowing their students: listening to their voices and learning who they are. In this first special assignment of our class, I will ask you to talk to me—and others—about who you are and what are your assets in learning. You will do this in your small group family using a process called “photovoice” where you take photos, narrate them, and organize them into a story that tells us about YOU—and that you can use to influence policy and educational decisions that affect you. In Week 2 you will take photos that speak to questions about what you wish your teachers (high school) or professors (college) knew about you (but that they don't) and about language in your life. You will discuss these photos in a small group family discussion [15 points] and compose narrative captions. For Week 4 your group will select a final set of photos with captions and organize them into a presentation that tells other people (classmates, professors, the university, policy makers) about you and your experiences and assets in learning. Your group will share this with the class in Week 4 [20 points] and discuss other groups' presentations. Additional details and guidelines will be provided. Done in your family group, discussions are graded individually, presentation is graded as a group.

6. Service learning project: Virtual tutoring (ind)—Weeks 2-15 [150 points, 21% of grade]

In this project that involves both service and learning, you will tutor an English learner student for a minimum of 10 hours over the course of the semester (these hours will count toward your field experience requirements). The goals of the assignment are for you (1) to build your pedagogical and professional skills and knowledge and to integrate and apply what we discuss in class to a real-life teaching situation, and (2) to serve the needs of an English learner in our community—in particular to be an additional teaching support in their lives during COVID-19 and distance learning. This assignment is designed to help you understand the more complex, interpersonal, human dimensions of what is covered in the textbook by working directly with an EL student, and to develop your ability to use reflection and analysis to make connections between pedagogical concepts and your own practices and experiences (connecting stuff in class to real life). It is divided into 2 parts:

4 activity designs + reflections [25 points each]: I will ask you to plan 4 specific activities to do with your student, implement them, and then write a reflection about how it went and how you would improve it. These activities and reflections will be due in Weeks 6, 7, 9, and 12.

10+ hours of tutoring logged [5 points per hour, 50 points total]: You will submit evidence of each tutoring session to BB after completing it. You can receive extra course credit for completing more than 10 hours with your student.

This project will require a background check and youth protection training—both will be done online and through UTEP. We will match you with an English learner student. More details to follow. Done individually, graded individually.

7. Content-area instruction lesson plan and critical friends conference [125 points, 17% of grade]

The core focus of the course is how we can provide ELs with a more just and equitable education by addressing both their needs for language instruction and their needs for content instruction when we teach. All of the core concepts we cover in the course are reflected in the idea and practice of content-area instruction—which is also the focus of Week 12. This assignment has two parts:

Content-area instruction (CAI) lesson plan [100 points]: You will design, revise, and submit a complete content-area instruction (CAI) lesson plan. Additional details and guidelines will be provided. Done individually, graded individually.

Critical friends conference on CAI lesson plan [25 points]: After you design your plan but before you submit it, you and a peer will review each other’s CAI lesson plans and provide constructive feedback for improvement using a critical friends process. Additional details and guidelines will be provided. Done in a pair, graded individually.

7. Final self-assessment reflection (ind)—Week 15 [50 points, 7% of grade]

In this final culminating assignment for the course, you will reflect on and assess your own learning over the semester and what you will do in the future as a result of that learning. Reflecting is a process of asking yourself—and writing about—three questions:

That is,

- **What happened?** What did you do, what did others do, what did you learn and how do you know you learned it?
- **So what?** Why is what happened and what you learned important? In what ways? How is what happened significant for your preparation as a teacher?
- **Now what?** Having learned what you described above, now what will you do in the future? What steps will you take to learn more? What steps will you take as a teacher?

I will ask you to use this process to assess the extent to which you have achieved the course learning objectives listed above in this syllabus. Details and guidelines to be provided. Done individually, graded individually.

POLICIES AND PROCEDURES***Inclusiveness and equity***

Learning happens only when we feel respected as a whole human being. My top priority in our course is to cultivate relationships of trust and respect and a sense that we see each other as whole, complex human beings. That you experience this in our course is important for the sake of your learning in our class *and* for the sake of your future students' learning, so that you know how to cultivate such relationships with them. To that end, I want you to know that all of you is welcome in our classroom space—all the parts of you as a person are welcome in our discussions, our activities, our assignments, and in our assessments. We are all complex people with a variety of perspectives, experiences, challenges, and resources—our gender identities, our sexual orientations, our religions, our races, our ethnicities, our economic statuses, our immigration statuses, our parenthoods, our veteran statuses, our ages, our languages, our abilities and disabilities. All the parts of you are welcome in our learning community to the extent that you feel comfortable bringing them in. I strive to show respect for the variety and wholeness in each of you, and I expect that each of you shows respect for each other as well. If you feel marginalized in our class, and you feel comfortable discussing it, I would like to know so that I can support you, protect you, and make changes that feel more inclusive and equitable. You can also talk with our Department Chair, Dr. Alyse Hachey, 915-747-7573 or ahachey@utep.edu, and/or you can report a complaint of discrimination to the University's Equal Opportunity Office, Kelly Hall, Third Floor, 915-747-5662 or eoaa@utep.edu.

Food insecurity, mental health, and access to support services

Learning happens only when our bodies and minds are well—and all of us occasionally face challenges to wellness that interfere with our learning, especially right now. I want you to be aware of a variety of support services on campus that can help you navigate these challenges and obstacles. **The UTEP Food Pantry** is available to help address students' basic food needs, as well as needs for personal hygiene items and access to additional support programs for students and their families. It is located at Memorial Gym Room 105, hours and more information posted online at <https://www.utep.edu/student-affairs/foodpantry/>. The office of **Counseling and Psychological Services** offers FREE mental health counseling, crisis counseling, and many workshops on wellness topics—all of which are free to UTEP students. Their hours and services are posted online at <https://www.utep.edu/student-affairs/counsel/resources/services-students.html>. Additional support services and resources are listed at <https://www.utep.edu/student-affairs/resources/index.html>.

If you are facing an obstacle to your learning, I encourage you to check out these resources or let me know and I will help you find the supports you need. YOU ARE NOT ALONE.

What to do if you feel overwhelmed

I want you to be here—in our class and present in our learning community. If you are not present and actively participating in our regular class activities, I will contact you to see if you are ok. If you notice that one of your family group members is not present or actively participating, please reach out to them and to me to let me know. If you find yourself overwhelmed, DO NOT BE ALONE WITH IT. Please let your family group members know and please let me know. We will work out solutions together.

Academic citations

Please provide APA-style in-text and bibliographic citations for all your written work. Help with APA style academic citations is available on our BB site.

Language policy for this course

This course is designed to develop your knowledge of and appreciation for bilingualism in your future students, in yourselves, and in our community. You are encouraged to use and develop your own biliteracy skills in this course. You may submit any formal assignment in English or in Spanish. For discussions and other group work, including whole-class, the most important criterion is that everyone has an opportunity to understand and to be understood—thus, any discussion group may use any variet(ies) of Spanish, English, both, or any other language, as long as the members of the group agree.

Changes to the syllabus

I strive to respond in my teaching to the sometimes-shifting conditions of our class community: current events, our discussions, our interests, our extant experiences, our needs for growth. Some changes may be made to the syllabus along the way. You will always be notified—or asked to participate in the decision to make changes—and, for significant changes, the updated syllabus will be made available on Blackboard. All versions have a version number in the header with the form year, month, day (e.g., 200824 for 2020, August 24).

Different abilities

If you have or believe you have a disability, you may wish to self-identify. You can do so by providing documentation to the Office of disabled Student Services located in Union E Room 203. Students who have been designated as disabled must reactivate their standing with the Office of Disabled Student Services on a yearly basis. Failure to report to this office will place a student on the inactive list and nullify benefits received. If you have a condition which may affect your ability to exit safely from the premises in an emergency or which may cause an emergency during class, you are encouraged to discuss this in confidence with the instructor and/or the director of Disabled Student Services. The Disabled Student Services Office can be reached at <http://www.utep.edu/dsso/>, (915) 747-5148 (voice or TTY), or dss@utep.edu.

Academic integrity

Students are expected to uphold the highest standards of academic integrity. Any form of scholastic dishonesty is an affront to the pursuit of knowledge and jeopardizes the quality of the degree awarded to all graduates of UTEP. Any student who commits an act of scholastic dishonesty is subject to discipline. Scholastic dishonesty includes, but is not limited to cheating; plagiarism; collusion; the submission for credit of any work or materials that are not attributable in whole or in part to another person; taking an examination for another person; any act designed to give unfair advantage to a student or the attempt to commit such acts. Proven violations of the detailed regulations, as printed in the Handbook of Operating Procedures (HOP) and available in the Office of the Dean of Students, may result in sanctions ranging from disciplinary probation, to failing grades on the work in question, to failing grades in the course, to suspension or dismissal among others. Refer to <http://sa.utep.edu/osccr/academic-integrity/> for further information.

ALIGNMENT OF THIS COURSE WITH TEXAS STATE STANDARDS FOR EDUCATORS

This course is aligned with two sets of Texas state educator standards focused on the use and instruction of language in schools: the bilingual education standards and the ESL standards.

VI. The bilingual education teacher has a comprehensive knowledge of content-area instruction in L1 and L2.

Texas ESL Educator Standards

- I. The ESL teacher understands fundamental language concepts and knows the structure and conventions of the English language.
- II. The ESL teacher has knowledge of the foundations of ESL education and factors that contribute to an effective multicultural and multilingual learning environment.
- III. The ESL teacher understands the processes of first- and second-language acquisition and uses this knowledge to promote students’ language development in English.
