Course Work

Course activities will consist of reading, written discussions posted on discussion boards, and long written assignments. In general, it is expected that the course will require approximately nine hours each week, including reading, exercises, discussions, and all other activities.

Using the Lessons/Reading Guide. The goal of each lesson is to give you a guideline for close, detailed reading of the books; this takes the place of lecture from the professor. Take advantage of it! It will make a big difference in discussion and on your papers, as this level of detail and understanding is what I am looking for. Please note: you do not need to write out answers to the questions (unless that would help you personally) and you do not need to submit the answers to the professor. Instead, you should review the questions before you read each set of pages indicated in the book, and have the questions by your side as

you read. Not every question can be answered directly in the reading; some are there to make you think or to point out implications rather than direct statements.

The Midterm - It will also cover your knowledge of concepts that we discuss in class.

Debates- Elaborate a short opinion focused on concepts and topics discussed in class. This is a critical thinking exercise.

Final reflection: The final essay will require you to critique the different social problems (social, economic, political). You will also be required to provide your own interpretation and solutions. I expect you to write a critical account of the different perspectives advanced by the authors we have read and discuss on class.

All the written paper (assignments and final paper) must be written in APA Format 1.5 Times New Roman font and include ACADEMIC references.

Academic Integrity

Plagiarism, cheating and other forms of academic dishonesty are prohibited and will be referred to the Office of the Dean of Students. Students must do their own work on all class papers and exams.

Work submitted formally (i.e., Papers) will be evaluated for content and for standard grammar and style. Contributions to discussions will be permitted somewhat greater deviation from standard practice for formal submission.

Standard practices of academic integrity are required in the course. All material submitted must be the student's own work. Ideas and expressions cited from the work of others must be credited appropriately. The course will follow the University of Texas at El Paso 's policies on academic honesty. These policies can be found at the Student Affairs webpage.

Usage of Artificial Intelligence:

Since writing, analytical, and critical thinking skills are part of the learning outcomes of this course, all work submitted in this course must be your own and completed in accordance with the **UTEP Handbook of Operating Procedures Chapter 1 Section 1.2.3**. AI generated submissions that use ChatGPT, Grammarly, Chegg or other AI composition software is prohibited, will be treated as cheating, and reported to the Dean of Students.
