COURSE DESCRIPTION AND GOALS

Updated 08-19-2021

This course focuses on the analysis of the Ethnographic Research’s conducted in The Caribbean (Puerto Rico, Dominican Republic, Cuba). Through an anthropological approach, the course discusses the political, economic and cultural aspects that conform the Spanish Speaking Caribbean Societies. This is a critical thinking course based on historical readings, documentaries analysis and cultural research. The students will learn about the main Historic Events, Theories, Culture, Music, Myths, The Living Conditions, Government Systems and the Challenges faced by the Caribbean people in the 21st Century.

The main goals of the course are:

1- Providing the students with a new perspective for looking at the Spanish Caribbean.
2- Recognize the cultural diversity of the Caribbean.
3- Identify and discuss some of the economic, historic and political problems faced by Caribbean people in the 21st century.
4- Applying your anthropological knowledge to propose recommendations and solutions to improve the living conditions in the Caribbean.

Requirements:
This class will be delivered face to face the attendance is mandatory. Students are responsible for reading all assignments in the time frame indicated and for completing all activities (discussions, debates, papers) within the announced time span. Each lesson will expire one week after its activation date and cannot be accessed after that. Exceptions will be made only for documented medical emergencies. There will be debates, discussion and written paper that represents a significant portion of your grade.

Familiarity with Spanish is not required although it will be highly advantageous when searching for additional materials.

This is a reading, audiovisual and writing intensive course designed to challenge pre-conceived ideas and understandings.

The subjects matter for this course will include adult themes. Students are required to be respectful and mature while dealing with these sensitive topics. If, for any reason, anyone becomes uncomfortable with the topics. I recommend to communicate with the professor through email vmvazquezro@utep.edu

Course Work

Course activities will consist of reading, written discussions posted on discussion boards, and long written assignments. In general, it is expected that the course will require approximately nine hours each week, including reading, exercises, discussions, and all other activities.

Using the Lessons/Reading Guide. The goal of each lesson is to give you a guideline for close, detailed reading of the books; this takes the place of lecture from the professor. Take advantage of it! It will make a big difference in discussion and on your papers, as this level of detail and understanding is what I am looking for. Please note: you do not need to write out answers to the questions (unless that would help you personally) and you do not need to submit the answers to the professor. Instead, you should review the questions before you read each set of pages indicated in the book, and have the questions by your side as you read. Not every question can be answered directly in the reading; some are there to make you think or to point out implications rather than direct statements.

The Midterm - It will also cover your knowledge of concepts that we discuss in class.

Debates- Elaborate a short opinion focused on concepts and topics discussed in class. This is a critical thinking exercise.

Final Ethnographic reflection: The final essay will require you to critique the different social problems (social, economic, political). You will also be required to provide your own interpretation and solutions. I expect you to write a critical account of the different perspectives advanced by the authors we have read and discuss on class.

All the written paper (assignments and final paper) must be written in APA Format 1.5 Times New Roman font and include ACADEMIC references.

Academic Integrity

Plagiarism, cheating and other forms of academic dishonesty are prohibited and will be referred to the Office of the Dean of Students. Students must do their own work on all class papers and exams.

Work submitted formally (i.e., Papers) will be evaluated for content and for standard grammar and style. Contributions to discussions will be permitted somewhat greater deviation from standard practice for formal submission.

Standard practices of academic integrity are required in the course. All material submitted must be the student's own work. Ideas and expressions cited from the work of others must be credited appropriately. The course will follow the University of Texas at El Paso’s policies on academic honesty. These policies can be found at the Student Affairs webpage.
