CE 5390 – Environmental Engineering Chemistry – Fall 2019

The University of Texas at El Paso
Civil Engineering
Class: Mon & Wed 4:30-5:50pm, Class. Bld. 204
CRN: 18920
Prerequisites: Intro Chemistry

Instructor: W. Shane Walker, Ph.D., P.E.
Email: wswalker2@utep.edu
Office: Engineering A-215
Phone: (915) 747-8729
Office hours: Mon & Wed, 2:30-3:30pm

Description and Objectives
This course involves a study of theory and analysis of chemistry in environmental systems: thermodynamic equilibrium, reaction kinetics, acid/base, complexation/solubility, and oxidation/reduction.

 Expectations
Participation: More than simply attending class, you are invited to think, and participate in the lectures and discussions. I encourage you to be curious and inquisitive during lectures and discussions.
Preparedness: I recommend that you bring the textbook, a personal course notebook, a pen or pencil, a calculator, completed homework assignments, and questions from the homework and assigned reading.
Punctuality: You are expected to be on time to class, laboratory exercises, and tours. Assignments submitted late will not be graded and will receive no credit.
Ethics: In engineering, personal integrity is of utmost importance, especially in the assessment and reporting of environmental conditions. Also, in most cases, it is necessary to work in teams to develop and design optimal solutions to problems and challenges, and it is essential that each team member contribute to the productivity of the team. In this course, I strongly recommend that you complete homework assignments in teams; in many cases, you will help each other through the solution of difficult problems. My goal for the homework is for you to develop proficiency in the theory and calculation of aqueous chemical systems. Thus, every student is accountable for understanding the concepts, analysis, and solution. Any student committing plagiarism (e.g., copying another’s work) or any other form of academic dishonesty will be reported to the Office of Student Conduct and Conflict Resolution for disciplinary action (which may include expulsion from the University). For a concise summary of engineering ethics, I have provided here the Fundamental Canons within the Code of Ethics of the American Society of Civil Engineers (ASCE):

1. Engineers shall hold paramount the safety, health and welfare of the public and shall strive to comply with the principles of sustainable development in the performance of their professional duties.
2. Engineers shall perform services only in areas of their competence.
3. Engineers shall issue public statements only in an objective and truthful manner.
4. Engineers shall act in professional matters for each employer or client as faithful agents or trustees, and shall avoid conflicts of interest.
5. Engineers shall build their professional reputation on the merit of their services and shall not compete unfairly with others.
6. Engineers shall act in such a manner as to uphold and enhance the honor, integrity, and dignity of the engineering profession and shall act with zero-tolerance for bribery, fraud, and corruption.
7. Engineers shall continue their professional development throughout their careers, and shall provide opportunities for the professional development of those engineers under their supervision.
8. Engineers shall, in all matters related to their profession, treat all persons fairly and encourage equitable participation without regard to gender or gender identity, race, national origin, ethnicity, religion, age, sexual orientation, disability, political affiliation, or family, marital, or economic status.
Quizzes
We will be using a cloud-based student response software by iClicker in class this semester for quizzing and polling. You will need to create an iClicker Reef Student account to participate in class using your laptop, smart phone, or tablet connected to the university’s Wi-Fi (UTEPSecure) or to your mobile data plan. Download the iClicker Reef (REEF polling) app on your smart phone (available for Android and Apple devices). If you have not used iClicker Reef before, then you can see these instructions: https://www.utep.edu/technologysupport/Files/docs/iClicker-Reef_Student-Signup-Instructions.pdf
You will need to sign up (create a new account). When creating your account, use your university email address (username@miners.utep.edu). After logging in, click the “plus” button to add a new course, select The University of Texas at El Paso, and then search for CE 5390, and select this course. You will NOT need to purchase a subscription to use iClicker REEF this semester because it is provided to you for FREE. Note: submitting votes for a fellow student is considered cheating and a violation of the University Honor Code and the Civil Engineering Honor Code. If you are caught voting for another student or have votes in a class that you did not attend, you will be referred to OSCCR for disciplinary action.

Homework
Homework assignments will be posted and submitted through the UTEP Blackboard website (available through https://my.utep.edu/).

Evaluation
Assessment of your performance in this course will be determined by class attendance and participation, homework quizzes, and exams. (No makeup exams will be offered.) The total course average will be computed by the following:

<table>
<thead>
<tr>
<th>Evaluation</th>
<th>Contribution (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Homework</td>
<td>30</td>
</tr>
<tr>
<td>Quizzes</td>
<td>10</td>
</tr>
<tr>
<td>Midterm Exams</td>
<td>30</td>
</tr>
<tr>
<td>Final Exam</td>
<td>30</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>100</strong></td>
</tr>
</tbody>
</table>

The final course grade will be determined according to the following:

<table>
<thead>
<tr>
<th>Average (%)</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>≥ 90</td>
<td>A</td>
</tr>
<tr>
<td>80-89</td>
<td>B</td>
</tr>
<tr>
<td>70-79</td>
<td>C</td>
</tr>
<tr>
<td>60-69</td>
<td>D</td>
</tr>
<tr>
<td>&lt; 60</td>
<td>F</td>
</tr>
</tbody>
</table>

I reserve the right to modify or augment this grading scheme for the sake of improving the educational effectiveness of this course.

Special Accommodations
The University of Texas at El Paso provides, upon request, appropriate academic accommodation for students with disabilities. For more information, contact the Center for Accommodations and Support Services (http://sa.utep.edu/cass/).
