Course Delivery/ COVID-19 Precautions

The course is delivered face-to-face in the classroom setting. If there is any change in the future regarding the format of course delivery, it will be announced timely.

If you have tested positive for COVID-19, you are encouraged to report your results to covidaction@utep.edu, so that the Dean of Students Office can provide you with support and help with communication with your professors. It is important to follow all instructions that you receive as part of the diagnosis, including isolation and staying at home until a negative test is produced.

If you experience COVID-19 symptoms, please follow the isolation protocol by staying at home and getting tested as soon as possible. If the test is negative but you are still seeking accommodations, please contact the Dean of Students Office for guidance in a timely manner. Your instructor will work with the Dean of Students Office to determine the extent of any such accommodations.

We strongly encourage you to think and act proactively in all matters related to COVID-19 and your academic endeavors. The Center for Disease Control and Prevention recommends that people in areas of substantial or high COVID-19 transmission wear face masks when indoors in groups of people. The best way that Miners can take care of miners is to get the vaccine. If you still need the vaccine, it is widely available in the El Paso area, and will be available at no charge on campus during the first week of classes. For more information about the current rates, testing, and vaccinations, please visit epstrong.org.

Course Description

This course is a continuation of Intermediate Accounting I. It is an in-depth study of financial accounting concepts, elements of financial statements, and preparation of financial reports.

Course Learning Objectives

After completing this course, you will be able to:

- Record, analyze, and interpret financial information associated with topics covered in this course in accordance with U.S. GAAP.
- Describe international accounting issues and practices associated with topics covered in this course.
- Demonstrate increased professionalism, including understanding the regulatory environment and analyzing ethical situations in business settings.

Course Structure

In attempt to keep some semblance of a regular semester in-person class schedule, this course will be structured as if it were a twice a week meeting class. That is, there will be two lectures every week (I assume the lectures are on Monday and Wednesday, as office hour days). Each lecture post will contain several short videos, covering different topics for that day. ***It is imperative for each student to watch these videos in a timely manner, so as to not fall behind on course material.***

Assignment and quiz due dates will be based on this “twice a week” lecture model. Please see assignment descriptions below as well as the course calendar attached for more details and assignment due dates.

Please use my virtual office hours to your advantage to ask questions, get clarity on certain topics, or simply to engage with the coursework and with me.

Collusion involves collaborating with another person to commit any academically dishonest act. Any act of academic dishonesty attempted by a UTEP student is unacceptable and will not be tolerated.

You are encouraged to discuss homework assignments with other classmates. However, copying work from any source, including classmates, homework files, the Internet, etc. is *not* acceptable.
